Our Philosophy of Sustainability and Adventure

Our Philosophy

We travelled all over Costa Rica and other parts of Central America to find and create a special place where one can intimately experience the natural world of both the tropical rainforest and the Pacific Ocean. Our plan was to create a place that **offers the comfort of a lodge and the activities and diversity of an adventure tour.**

Playa Nicuesa Rainforest Lodge is:

- A place that is **remote yet accessible**
- A place that is **sensitively designed in harmony with the environment**
- A place that is a **nature lover's, adventure sports lover's and environmentalist's dream**
- And, most importantly, a place that **never lets you forget that you are nature's guest.**

We envisioned and created a lodge that is small enough to allow us to help you design a special experience that meets your individual interests and goals. This also allows you the flexibility to change your schedule to meet your pace and mood.

We hope that you will come and enjoy nature and adventure with us!

Environmental Initiatives

Playa Nicuesa Rainforest Lodge is an environmentally sensitive lodge set on a 165-acre private preserve in the undeveloped Pacific Coast Osa Peninsula/Golfo Dulce region of Southern Costa Rica. The lodge embraces conservation and harmony with the natural environment and caters to travelers interested in ecotourism, nature, adventure and sports. Playa Nicuesa is located within the lush rainforest on the Piedras Blancas National Park, and fronts the pristine coastline of the Golfo Dulce.

Our goal is to provide guests with an experience that they will always remember fondly: Excellence, friendly service, hi-end accommodations, educational opportunities and unique, well run adventure activities, **and** to provide this experience while operating the lodge in the most environmentally friendly manner possible. We have incorporated this goal into both the construction and operation of the lodge in the many ways listed below. And, we would be thrilled to share more with you if you are interested!

● Construction

- Worked with Costa Rican architect to design all lodge structures
- The entire construction was performed by local labor from the immediate coast as well as the towns of Puerto Jimenez and Golfito.
- Lodge buildings are located on less than 2% of property.
- The use of recycled construction materials such as: roof tiles on the lodge and cabins are made of recycled plastics including banana bags.
- Wood used throughout Playa Nicuesa is either naturally fallen and permitted by the government to be pulled out of the forest by oxen, or farmed
- Environmentally friendly design features: design of the cabins and lodge is unique and in context with the natural environment and, the orientation of the cabins and lodge maximizes natural ventilation of air from the mountains and the beach through the structures.

- Separation of grey water and black water, and use of organic micro-organisms to clean septic system of toxins and diseases.
- Little to no disturbance to the natural landscaping to protect the natural habitat.

Operation

- Electricity is provided by solar energy. Panels are centrally located on main lodge structure.
- Hot water is provided by on-demand propane which means that the propane is used only when the hot water faucet is turned on.
- Fuel efficient four stroke engines are used on all of our boats.
- Trash separation for the purpose of recycling glass, plastics and paper.
- Composting organics
- Rainwater management: use of trenches to channel heavy amounts of rainfall thereby reducing soil erosion.
- Gardens and landscaping maintained without the use of fertilizers, pesticides and herbicides.
- Use of homemade natural solution to combat certain insects (garlic, onion, chili pepper solution)
- Use of organic-biodegradable cleaning products.
- Use of organic shampoos and soaps in guest rooms.
- Energy efficient light bulbs.
- Energy efficient refrigerators and freezers.
- Use of solar lanterns for pathway lighting.
- Tours and activities are conducted in the most environmentally friendly manner possible in order to preserve the natural habitat and the wildlife that thrive here, while always educating guests about the importance of environmental conservation.
- Offer daily Sustainability Tour of lodge environmental operations (recycling area, composting area, trash separation, solar system, construction efforts, etc.).
- Lodge meals focused on national and regional cuisine.

Community Efforts

- Employ local/Costa Rican staff (95% of employees); primarily from the immediate coastline and two area villages.
- Employing reformed hunters as guides.
- Providing opportunity to employees to learn English. (e.g. fully sponsored one employee to live in San Jose and attend a one month intensive English language program).
- Display decorations and sell to guests locally produced artwork and handicrafts in effort to support the development of regional/local cultural and artistic activities.

Memberships

- Active member of Women of the Osa (WOO) which is a local effort as part of an international campaign supported by The Nature Conservancy, Conservation International and Costa Rica-USA (CRUSA) to protect and preserve the OSA Peninsula/Golfo Dulce Region.

General Information

Playa Nicuesa Rainforest Lodge accommodates up to 22 guests offering five private cabins and a guest house. All accommodations feature private open-air baths, canopied beds, ceiling fans, and full length louver doors that wrap around rooms – with private verandas providing spectacular views of rainforest.

Lush, green vegetation as far as the eye can see, with leaves as big as elephant ears. Jade colored water. Toucans, monkeys, iguanas, dolphins, majestic blue butterflies – all are here at Playa Nicuesa Rainforest Lodge.

If physical challenge is what you want... it's here. If rest and relaxation is what you need... it's here. And everything in between! We are a destination lodge that offers **kayaking, fishing, snorkeling, hiking, wildlife viewing, yoga, horseback riding, and hammock swinging** right out our doorstep.

Playa Nicuesa Rainforest Lodge embraces conservation and harmony with the natural environment, and offers a perfect blend of comfort with environmental preservation. This wilderness lodge is sensitively designed with the environment and constructed from naturally fallen trees, recycled materials and harnesses the natural energy from the sun to provide electricity.

What also makes Playa Nicuesa Rainforest Lodge so unique, pristine and private is that **access from nearby villages is by water only.** Dramatic views of the mountains surrounding the Pacific Coast gulf welcome you to the lodge as you approach by boat. Once you arrive at the lodge, lose yourself in the tropical paradise that surrounds you, and let the adventure begin!

We refer to Playa Nicuesa Rainforest Lodge as our "**Selva y Mar**" (**jungle and sea**) location because our front yard is literally a gulf right off the Pacific Ocean, and our back yard is literally thousands of acres of pristine tropical rainforest. Adventure and nature activities are unlimited!

The **Front Door** leads to the Golfo Dulce's 80 degree blue green waters. Kayak the Golfo Dulce (sweet gulf) right off our beach front. Jump in! The water is calm and perfect for **swimming**. Spend a relaxing hour or a challenging day **kayaking** and exploring along the coastline and through nearby mangroves. Stop and **snorkel** along the way! In-shore and off-shore **fishing** guarantee a fresh fish dinner.

And, from the Golfo Dulce we can also access several rivers and the Pacific Ocean leading to a variety of marine environments that make this area so unique.

The **Back Door** of our 165-acre preserve is surrounded by thousands of acres of pristine tropical rainforest, full of fruit trees and tropical flowering plants. Explore the jungle by **hiking** our labyrinth of trails that wind through the rainforest canopy, up the mountainside, and connect through the National Park. Listen to the howler monkeys, watch and hear the calls of any one of the 250 species of birds, and end up at a waterfall. OR, just **relax** in a hammock under the almond tree by the sea and take in the ocean and mountain views while listening to the rhythmic waves.

Location and Boat Transfers Coordination

Playa Nicuesa's location is amazingly Pristine, Private, and Beautiful! Located in the least populated region of Costa Rica, Playa Nicuesa offers a **perfect blend of comfort with environmental conservation.** Natural energy from the sun is harnessed to provide electricity. Cabins are uniquely designed to create a seamless transition between indoors and outdoors.

The best way to get to Playa Nicuesa Rainforest Lodge is to fly via Sansa Airlines (www.flysansa.com) or Nature Air (www.natureair.com) to either Puerto Jimenez or Golfito. Flight time is approximately 50 minutes. From there, we will meet you at the airport and transport you by our boat across the Golfo Dulce to Playa Nicuesa Rainforest Lodge (the boat ride is approximately 35 minutes).

You may also drive your car to Golfito. It is recommended that you park your car in a secured lot, and that you remove anything of value from your car. A secure place to leave your parked car is at the Samoa del Sur Hotel. The drive time is approximately 7

hours. The road between San Jose and Golfito is well maintained.

Arrival-Departure Coordination: You do not need to confirm your clients' arrival/departure location and time ***if you have already submitted it to our reservations office.***

PLEASE NOTE THAT WE PICK UP AND DROP OFF AT BOTH PUERTO JIMENEZ AND GOLFITO AND BOTH LOCATIONS ARE EQUAL DISTANCE FROM THE LODGE. THUS, YOU SHOULD FEEL FREE TO BOOK EITHER LOCATION, BUT, PLEASE DO SO ON THE FLIGHTS THAT MATCH WITH OUR PREDEFINED BOAT TRANSFER HOURS. THIS WILL HELP US TO AVOID HAVING PICK UPS AND DROP OFFS IN BOTH TOWNS AT THE SAME TIME AND WASTING FUEL AND CARBON EMISSION UNNECESSARILY.

Please contact our reservations office for more details on pick up and drop off schedules.

Important: The Nicuesa transfer boat cannot pick up/drop off guests any later than 3:00 pm on the day of their arrival or departure due to the water and weather conditions in the late afternoon. **WE WILL PICK UP GUESTS FROM FLIGHTS THAT ARRIVE LATE, BUT CANNOT PICK UP GUESTS AT FLIGHTS THAT ARE SCHEDULED TO ARRIVE AFTER 3:00 PM.** Therefore, please make sure the flights, private transfers and/or any other method of arrival/departure are scheduled before that time.

Lodge Accommodations and Rates

Playa Nicuesa Rainforest Lodge rooms offer privacy and comfort in a natural setting. The Lodge has five private cabins (three 1-bedroom, one 2-bedroom and one cabin suite) and the Mango Guesthouse with four separate rooms.

On Room Set Up: We can put one queen bed or two singles or a queen and a single in all rooms. In the Two Bedroom Cabin we can put an extra bed in the common room. In the Cabin Suite we have a removable partition wall that allows you to create two separate rooms or one large room that have a variety of bedding options. We also have bunk beds for children to be placed in any cabin/room. We cannot put three beds in any one room, with the exception of the cabin suite set up as one large room. Please let us know your exact needs.

Room Description and Capacity:

One Bedroom Cabins (3): These cabins are very private and set apart from all other accommodations. Tucked into the rainforest affording you a unique feeling of being in an amazing natural setting, yet with design and comfort details that has been described as simple yet jungle chic. Each cabin has a private entrance, beautiful hardwood floors, private open air shower-bathroom, private terrace, louver doors and windows that wrap around the room to afford panoramic views. All cabins have one queen bed (or two single beds upon request) with mosquito netting and ceiling fans. The garden open air shower is within the cabin's bathroom, yet allows you to look at nature all around. Look out for the peeping monkeys!

Maximum Occupancy: 1 or 2 adults, 1 adult and 2 children, or 2 adults and 1 child.

Cabin Suite (1): The Cabin Suite is also very private and set apart from all other accommodations. Tucked into the rainforest affording you a unique feeling of being in an amazing natural setting, yet with design and comfort details that have been described as simple, yet jungle-chic. The cabin has a private entrance, beautiful hardwood floors, private open air shower-bathroom, private terrace, mosquito netting over the beds, ceiling fans, louver doors and windows that wrap around the room to afford panoramic views of the surrounding jungle. The Cabin Suite is similar in size to the two bedroom cabin, but set in a large loft like room with a removable partition wall to add flexible space for families and groups. With the partition in place it creates two large bedrooms that can accommodate 4 to 5 guests in a variety of bedding options. The Cabin Suite is also great for couples seeking more space, as well as the luxury of a comfortable sitting area, set up with a couch and chairs. This cabin also is equipped with a deluxe bathroom with two sinks and our signature garden open air shower that is designed to allow you to look at nature all around.

Minimum Occupancy: 3 adults, or 2 adults and 2 children.

Maximum Occupancy: 4 adults, or 3 adults and 2 children, or 2 adults and 3 children.

Two Bedroom Cabin (1): This is a private cabin much like the single cabins but larger with two bedrooms and a common den that can also be converted for another bedroom. This is a great choice for families, especially with younger children. The cabin is set at the edge of the jungle but only a few steps from the main lodge building. Each cabin has a private entrance, beautiful hardwood floors, private open air shower-bathroom, private terrace, mosquito netting over the beds, ceiling fans, louver doors and windows that wrap around the room to afford panoramic views of the jungle. The cabin has one large bathroom complete with our signature garden open air shower that is designed to allow you to look at nature all around. The cabin can accommodate up to 5 people. However, we recommend that families with older children or groups of adults that want to be near each other also consider two rooms in the mango guest house. Two rooms in mango guest house will give you more privacy amongst your group and an additional bathroom.

Minimum Occupancy: 3 adults, or 2 adults and 2 children.

Maximum Occupancy: 4 adults, or 3 adults and 2 children, or 2 adults and 3 children.

Mango Guest House (4 private rooms)

The Mango Guest House is a 2 storey accommodation that has 4 separate rooms. Set in a beautiful jungle garden area with mango trees on all sides and open views of the surrounding rainforest. Each room has private entrance, beautiful hardwood floors, private bathroom, private terrace, louver doors and windows that wrap around the room to afford panoramic views. Rooms have queen beds (or twin beds upon request) with mosquito netting and ceiling fans. The Mango Guest House is separate from the Main Lodge.

The mango house is great for all types of travelers. Especially a good choice for friends or families that want to be close, but also have the privacy of your own room with private bathroom. Also great for single travelers or those who are a bit nervous about staying in the jungle, as the mango rooms are more in an open area than the private cabins that are tucked into the rainforest. Also great for parties of approximately 6-10 that want to rent all 4 rooms at once.

Maximum Occupancy Per Room: 1 or 2 adults, 1 adult and 2 children, or 2 adults and 1 child.

Children ages 6 through 12 are welcome at Playa Nicuesa Rainforest Lodge! We have had many children have a great time at Playa Nicuesa. The rainforest and the calm waters of the Golfo Dulce are excellent places for children to learn and participate in nature and sporting activities. We have many flat trails that are easy for children, and the warm and calm waters of the Golfo Dulce provide great training ground for kayaking, fishing and swimming. Please remember that we are all nature's guests - in a true tropical rainforest - and there are real/inherent hazards in nature that parents/guardians must be aware of and supervise their children at all times. Playa Nicuesa is a remote and natural location, and electronic games, t.v. and computers are not available so that all guests may enjoy the nature they came to experience.

We can provide "child-friendly" food and special tours geared towards kids, if needed. Just let us know in advance.
